SUMMARY

Aspiring AI Engineer currently in the 8th semester of B.Tech (AIML) at Brindavan Group of Institutions, Dwarakana-gar, Yelahanka, Bangalore (affiliated to VTU), graduating in 2026. Maintaining an overall CGPA of 8.3 (7th semester CGPA: 8.2). Proficient in Python, Java, C++, SQL, HTML, CSS, Django, and FastAPI, with practical experience in machine learning, computer vision, and prompt engineering. Key academic projects include Rain Detection and Cloth Collection System (mini project) and Prompt-to-Video Gen AI (major project). Multilingual in Hindi, Kannada, English, and Telugu. Seeking roles as an AI Engineer, Machine Learning Engineer, Data Scientist, AI Research Engineer, or Computer Vision Engineer.

TECHNICAL SKILLS

Programming: Python, Java, C++, SQL, JavaScript, HTML, CSS

Frameworks & Tools: Django, FastAPI, TensorFlow, OpenCV

Domains: Machine Learning, Deep Learning, Computer Vision, Gen AI, Prompt Engineering, Data Analysis

PROJECTS

Project 1

Rain Sensor and Automatic Cloth Collection System

- Designed and implemented an automated system to collect clothes during rain, protecting them from getting wet.
- Integrated a rain sensor module to detect rainfall and trigger the cloth collection mechanism.
- Developed a notification system to alert users via mobile notification and in-house LCD display.
- Added an audible alarm to ensure immediate attention when rain is detected.
- Improved home automation and convenience by ensuring clothes are always safe from unexpected weather.

Project 2

Prompt-to-Video Gen AI

- Developed an AI based application that generates videos from text prompts.
- Utilized advanced machine learning models for automatic video content creation.
- Enhanced user experience by enabling quick and seamless video generation.
- Integrated user experience by enabling rapid content generation from simple text descriptions.
- Demonstrated understanding of generative AI and deep learning in multimedia applications.

EDUCATION

UNIVERSITY – BRINDAVAN GROUP OF INSTITUTION (affiliated to VTU)

YEAR – 2026

LANGUAGES

Hindi, Kannada, English, Telugu

OTHER EDUCATION / CERTIFICATIONS

Prompt Engineering with ChatGPT – upGrad , Introduction to Gen AI – Google Cloud , Intro to Gen AI Studio – SkillUp , AI Tools Workshop – be10x (with certificates)

INTERESTS

AI-human collaboration, AI in healthcare, keeping up with AI news and innovations, listening to music, improvisational comedy, and gaming.
